

We are writing to express how much we enjoy K-Love. We live in a small community, where this station must be sent by translator to us. It is a wonderful station that we listen to daily, and we would not have any programming of this caliber on any other station available to us in LaGrande and Island City if we were to lose this station. The only other local stations, are heavy rock or western music themed, which we do not listen to at all. I think there are many in our community who are served by K-Love, and appreciate it's programming. Please let us keep it. Thank you.
